ABOUT

I am a full stack developer with a passion for AI and machine learning. I pay close attention to details and learn new things fast. My focus is on creating efficient and effective projects by following best practices.

EDUCATION

LD College of Engineering, Ahmedabad

2025

B.E. Computer Engineering

CGPA: 8.49

EXPERIENCE

IBM Skills Build

June 2024

AI/ML Intern

- Learned the fundamentals of AI, ML and NLP.
- Built a chatbot for an online tea store.

PROJECTS

Digital Ledger App

- An app inspired by KhataBook, where both users can view and add transactions to the same account.
- The backend is built with Express JS and REST APIs, using MongoDB as the database.
- Added security features with hashed passwords, mobile OTP, and encrypted cookies for user authentication.

Quick Quotes

- A quote website where users can add and delete quotes.
- Built with NextJS and MongoDB, and used NextAuth for user authentication.
- The home page shows the latest quotes using ISR, and the profile page is dynamic.

Personal Expense Tracker

- A mini-project website for managing and analyzing personal expenses.
- Built with Servlets and MySQL, the site allows users to add or remove categories, view expenses and total spendings by category.

SKILLS

Languages: Python, Java, JavaScript, SQL

Frameworks: React, Next, Express, Flask

Databases: MySQL, MongoDB

Data Science: Numpy, Pandas, Matplotlib, Sklearn
